1. I am a citizen of Japan with the mailing address and residence as stated below next to my name.
2. I have reviewed and understand the contents of the specification and claims of the above-captioned Reissue Application and this Reissue Declaration.
3. I believe that I am the original and first inventor of the invention described and claimed in U.S. Letters Patent No. 6,542,143, which issued from U.S. Patent Application No. 08/945,522 filed October 28, 1997 which is a national stage application of PCT/JP97/00609 filed on February 28, 1997.
4. I claim the priority benefits of the following applications: Japanese Patent Application No. 8-67304 filed February 28, 1996.
5. I acknowledge the duty to disclose information which is material to the examination of this Reissue Application in accordance with 37 C.F.R. §1.56(a).

6. I consider U.S. Patent No. 6,542,143 to be partly inoperative by reason of claiming less than I had a right to claim. For example, the error arose at least in failing to include claims specifically directed to  $\gamma$  correction type digital data or setting limitations on the number of bits.

7. All errors being corrected in this Reissue Application up to the time of filing this Declaration arose without any deceptive intention on my part.

8. I hereby revoke all prior powers of attorney and appoint the patent practitioners associated with Oliff & Berridge, PLC, Customer No. 25944, as my attorneys of record with full power of substitution and revocation to prosecute this application and to transact all business in the Patent Office. All correspondence in connection with this application should be sent to Oliff & Berridge, PLC, Customer No. 25944, telephone (703) 836-6400.

9. I have reviewed and understand the contents of this Supplemental Reissue Declaration, and all statements made herein of my own knowledge are true, and all statements made on information and belief are believed to be true; and further these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of United States Code and that such willful false statements may jeopardize the validity of the application or any patent reissued thereon.
